

1ST SUMMIT BANK Helps 22 Food Banks Feed Their Communities

1ST SUMMIT BANK donated \$6500 to 22 food banks in five counties and answered the call for help when these organizations needed it the most. With unemployment soaring and kids not able to eat at school, more people than ever are turning to their local food banks for basic sustenance. These food distribution centers are seeing at least a 50% increase in the number of visitors, many for the very first time.

Food banks are struggling to meet this increased need at a time when food supplies are at their lowest. With the current run on groceries, stores have less provisions to donate while, at the same time, less people are donating. These local non-profits are calling for our help.

Thanks to 1ST SUMMIT BANK, food banks in Cambria, Somerset, Indiana, Westmoreland, and Blair Counties can feed an additional 65,000 meals to their communities.
